

1. Why C5?

C5 Alliance is a friendly, ambitious and progressive company, with the delivery of technology for positive impact at the heart of everything we do.

We would like to empower the new generation of IT talent to achieve more and bring their expertise back to the Channel Islands following graduation.

These are the principles that drive how we live and work at C5 Alliance:

Be Original

We are always interested in new approaches to problem-solving and people who think innovatively.

Be Collaborative

We expect our teams to work together and care about the whole organisation.

Be Entrepreneurial

We value creative ideas, but they also need to have a commercial benefit to our business and clients.

Be Positive

We look for people who drive positivity to produce solutions and outcomes that benefit our clients, ourselves, our colleagues and our industry.

Make an Impact

We believe that everything you do should have a clear objective to change things for the better.

2. What are we looking for?

Applicants for the C5 bursary should be applying to study for a Computer Science, Engineering, Mathematics or Science-based undergraduate degree at a UK or International University or other recognised higher education establishment.

You should also have a passion for technology and a desire to work within the technology sector following graduation.

3. What can we offer you?

We will offer the successful candidate(s) a bursary to assist with the associated costs of going to university. This sum will be a loan that is repayable in the form of work for C5 during your vacation time. You will need to specify your support requirements later in this application.

In addition to financial support, we will provide a mentor from our business who will meet with you each term throughout your studies to assist and advise on your current program of study.

Depending on your course structure, we may also be able offer a paid Sandwich year.

4. All about you
